

MCS 210 – Design Project

- In this project you are being asked to re-design a popular board game for visually impaired individuals.
- You must read the document title *Adaptation Guidelines* to help you in the process of adapting the board game to visually impaired individuals.
- The game you will re-design is the game of Monopoly. Take careful consideration of the game rules and the game objects as well as of the game mechanics.

Deliverables:

- Game design document in an Overleaf project named MCS210_Design_Project.
- You must include prototype pictures and detailed explanation of all game components as well as a justification for your design choices.
- Include the name of all team members that participated in this project.
- When you have finished writing your document, download your project from Overleaf as a .zip file and submit via Moodle.
